In great essential of a resort hotel, as distinguished from a city hotel, is ample public space devoted to the use of its guests, in the form of bright and airy Exchanges, Lobbies, Parlors, Galleries end Solariums, affording pleasing vistas and beautiful promenades, the whole combining into a harmonious vision of grandeur and beauty, while replete with the cozy group seclusions of home, and yet affording full view of the pleasing panorama of the resort life. In this essential startling to the flatthorough Elethreim stands without an equal in Atlantic City or elsewhere. Its "Ownership Management," while accounting for its unique reputation, is a guaranty of the high character of its patronage and the unexcelled quality of its service and cuisine. It employs only white service in both its American and a la carte dining rooms.

service and cuisine. It employs only white service in both its American and a la carte dining rooms.

It makes a specialty of its high-class music every evening throughout the year, with special Sunday night solo features. Romani, the world's highest Tenor, of Venice, is engaged to sing at frequent intervals during July, August and September.

Atlantic City, with its only real competitor (Europe) this year impossible, is off-ring unusual attractions and entertainments. Two fiving bosts are daily sources of interest. Two cold courses, the Yacht Club, the fishing fleet and the won-terful bathings based attract their respective devences, while the pier amusements, the Boardwalk, the first motor ro ds and the splendid butes and restaurants, afrod endowment to all. There is only one Atlantic City, and this summer it is particularly attractive. Write for illustrated booklet and rates.

DEPARTMENT OF AGRICULTURE EXPERIMENTS WITH NEW FRUIT JUICES AND SIRUPS

HERE is an immense mass of fruit this country, and that a greate to waste is the belief of the Departnent of Agriculture. Of late, therefore, it has been giving its attention to the natter, and it has developed new means many of the summer and autumn fruits so that they can readily be converted into valuable products by the house facturer in such form as to be sold at a moderate price, thus making not only a fuller use of the fruit, tut supplying two pure, healthful and delicious fresh

H. C. Gore of the bureau of chemistry is the scientist in charge of the fruit and vegetable utilization laboratory, and he speaks with enthusiasm of what is being done in this connection. This summer he is experimenting with extracts of injucy of the cherry strawts. summer he is experimenting with extracts of juices of the cherry, straw-berry, currant, blackberry, raspberry, pineapple, peach, orange, lemon and grapefruit. The juices obtained may be used as the plain, pure expressed extract of the fruit, or they may be concentrated and used as sirups.

The processes of extracting and preparing the juices of these fruits are in the main somewhat similar to those used in preparing the juice of grapes, out Mr. Gore's experiments show that ual treatment to preserve flavor and color. His desire is to procure from every cies of fruit a pure juice which will retain color and flavor in all the strength and purity of the fresh fruit. He has been successful in many cases but he is yet experimenting with erabbing, dancing, tennis, artesian water. Let us tell you more about it. H. F. "We advocate a simple method of bottling the juice of grapefruit for use in making acid beverages. All that is necessary is to bring the fruit juice to the boiling point in a porcelain-lined or enameled kettle, pouring it while still hot into bottles, which then are hermetically sealed. The juice when so handled will keep indefinitely and provides a base for grapefruitate when so handled will keep indefinitely and provides a base for grapefruitate to the fruit.
